e-mail: glushkovato@gmail.com

I am a ML/NLP engineer, broadly interested in **LLMs, Evaluation, Interpretability and Uncertainty Estimation**. I recently completed a PhD, where my doctoral research focused on enhancing the robustness of Machine Translation evaluation models and developing methods that can quantify and communicate the uncertainty associated with their outputs. This experience has refined my skills in developing complex ML systems and ensuring their robustness and fairness.

Driven by the ongoing advancements in AI, I thrive on exploring the latest ML/DL tools, taking ownership of projects, and contributing to impactful work across various domains.

Based in Lisbon, Portugal. Hold a valid Portuguese residency permit, allowing work authorization. Open to relocation if needed.

Education

Education	
PhD in Computer Science and Engineering, Instituto Superior Técnico	Lisbon, Portugal
Supervisors: André F. T. Martins, Chrysoula Zerva	2020 - 2024
Thesis title: Uncertainty Estimation and Robustness in Machine Translation Evaluation	
Collaborative project MAIA (Multilingual AI Agent Assistants) – CMU Portugal Program partnership Collaborative project NextGenAI (Center for Responsible AI).	
MSc in Computer Science, HSE University	2018 - 2020
BSc in Applied Mathematics and Computer Science, HSE University	2014 – 2018
Internships	
Carnegie Mellon University Research. Robust and interpretable machine translation evaluation. Supervisor: Alon Lavie.	Pittsburgh, USA 2022

HSE UniversityResearch. Question-answering for Russian language.

Moscow, Russia
2019 – 2020

Unbabel Lisbon, Portugal Applied Al Research. Language model-based data filtering and selection for machine translation.

Yandex Moscow, Russia

Software Engineering. Classification and ranking of multiple object definitions by user relevance. 2015

Professional Experience

Instituto Superior Técnico	Lisbon, Portugal
PhD Researcher Uncertainty estimation and robustness for efficient machine translation evaluation	2020 - 2024

Digital Decisions Moscow, Russia

2019 - 2020

Hierarchical classification and routing of customer messages for Vkusvill.

Named entity recognition for a speech assistant at Huawei.

DigineticaMoscow, RussiaJunior Data Scientist/Engineer2017

Spell checker for search queries suggesting synonymous corrections.

Extraction of concise summaries from product reviews.

Technical Skills

ML Engineer

- Deep Learning, Machine Learning, Natural Language Processing.
- Fluent in Python, with minor experience with R and C++.
- Proficient with common data science libraries such as NumPy, pandas, matplotlib, scikit-learn, and HuggingFace.
- Comfortable with common data science tools, e.g. bash, git, Linux, slurm, Jupyter Notebook, and Google Colab.
- Experience with Deep Learning frameworks: PyTorch, Keras.
